# THE WALKS

Haug / Kaegi / Puschke / Wetzel

The Walks is an app with a collection of audio walks by Rimini Protokoll. Each walk is a short audio experience covering specific locations in your city and an invitation to rediscover and interact with your environment. It only takes 20 minutes to do an audio walk. Get going whenever you want. You decide how many of the walks you'd like to do and in what order.

The stories and soundscapes in the short audio experiences are global in scope. The Walks connects people around the world in a local experience via the fundamental human act of walking.

**Stage dimensions** outdoor performance in local language(s)

**Visitors per show** walk for one or two persons

**Duration** 16-30 min depending on specific walks

**Languages** German, English, French, Italian, Romanian, Spanish

Audiowalks for your city.  
Several walks in one App.

„The amazing thing is: no two short radio plays are alike, none is boring, each surprises.“  
(July 2021, Saarbrücker Zeitung)
