

LA DANSE D'AMAZON (solo)

produced by Rimini Apparat

premiered May 2023

Daniel Wetzel

Shopping centers and zones are changing, while delivery services and supermarkets offer late-night and home delivery. The Amazon marketplace comprises more than 355 million products - and many more are added every day - an endless dance of goods and requests around the globe, shipped from hundreds of "fulfillment centers". But how do they actually work and what does this "fulfillment" consist of? In this solo, Daniel Wetzel shows excerpts from his circus piece "la danse d'amazon", talks about the 12 months of research, the most important things that were cut by dramaturges and advisors and torments us with hits from the GDR, without which the Amazon system might never have existed ...

Stage dimensions 5 m x 3 m stage area

Visitors per show no limitation

Shows per day possible 1 - 2

Duration 55 min

Special tec. requirements video projector

Rehearsal period 1 day for the team's arrival. Show on the same day as set-up and rehearsal
